---

<sup>1</sup> 'Five Year Supply' sites: these were planning applications that were permitted as a departure to the development plan while South Cambridgeshire District Council was unable to demonstrate a five year housing land supply. This does not include planning applications that would have normally been permitted as a departure to the development plan

## Affordable housing policy

### Affordable Housing permissions in South Cambridgeshire as a percentage of all eligible permissions

| Period      | Affordable dwellings permitted as a % of all dwellings completed on sites where policy HG/3 is applicable |
|-------------|---|
| 2011 – 2012 | 40%   |
| 2012 – 2013 | 39%   |
| 2013 – 2014 | 37%   |
| 2014 – 2015 | 23%   |
| 2015 – 2016 | 38%   |
| 2016 – 2017 | 41%   |

Table 15a – Affordable Housing permissions in South Cambridgeshire as a percentage of all eligible permissions where Policy HG/3 of the Development Control Policies DPD (2007) was applicable

Source: Research & Monitoring - Cambridgeshire County Council

| Period      | Affordable dwellings permitted as a % of all dwellings permitted on sites where the affordable housing policy of Local Plan is applicable (Policy H/10) |
|-------------|---|
| 2017 – 2018 | 33%   |
| 2018 – 2019 | 33%   |
| 2019 – 2020 | 32%   |
| 2020 – 2021 | 29%   |
| 2021 – 2022 | 40%   |

Table 15b16 – Affordable housing permissions in South Cambridgeshire as a percentage of all eligible permissions in accordance with the South Cambridgeshire Local Plan (2018) Policy H/10

Source: Research & Monitoring - Cambridgeshire County Council

Note: for (a) the data includes planning permissions where Policy HG/3 of the Development Control Policies DPD (2007) applied and where the target was to achieve a 40% affordable housing contribution either onsite or offsite through a commuted sum contribution.

For (b) the data includes planning permissions where Policy H/9 of the submission version and H/10 of the adopted version (post 28 September 2018) of the South Cambridgeshire Local Plan applies and where the target is to achieve a 40% affordable housing contribution either onsite or offsite through a commuted sum contribution.

In September 2018 Policy H/10 was adopted as part of the South Cambridge Local Plan (2018). In November 2018 Members agreed to require affordable housing on sites of 10 or more dwellings, in line with the National Planning Policy Framework (NPPF) rather than 11 or more dwellings as set out in the submission version of Policy H/9 and adopted version of Policy H/10. The data included for 2018/19 therefore uses two different thresholds: 11+ dwelling permitted between 1 April 2018 and 13 November 2018, and 10+ from 14 November 2018-31 March 2019.

## Affordable Housing permissions in Cambridge as a percentage of all eligible permissions

| Period      | Affordable dwellings permitted as a % of all dwellings permitted on sites where the affordable housing policy of Local Plan is applicable (Policy H/10) |
|-------------|---|
| 2018 – 2019 | 54%   |
| 2019 – 2020 | 37%   |

Table 17a – Affordable housing permissions in Cambridge as a percentage of all eligible permissions in accordance with the Cambridge Local Plan (2018) Policy 45  
Source: Research & Monitoring - Cambridgeshire County Council

| Period      | Affordable dwellings permitted as a % of all dwellings permitted on sites of 10/11-14 dwellings where the affordable housing policy of Local Plan is applicable (Policy 45) | Affordable dwellings permitted as a % of all dwellings permitted on sites of 15+ dwellings where the affordable housing policy of Local Plan is applicable (Policy 45) |
|-------------|---|--|
| 2020 – 2021 | 23%   | 47%  |
| 2021 – 2022 | n/a   | 41%  |

Table 18b – Affordable housing permissions in Cambridge as a percentage of all eligible permissions in accordance with the Cambridge Local Plan (2018) Policy 45  
Source: Research & Monitoring - Cambridgeshire County Council

Note: for (a) the data includes data for all sites within both the 11 (10) – 14 and 15+ thresholds.

For (b) the data includes data presented separately for the 11 (10) - 14 and 15+ thresholds.

Policy 45 of the Cambridge Local Plan (2018) requires the provision of affordable housing on schemes for 11 units or more, or on developments of less than 11 units if the total floorspace exceeds 1,000 square meters. However, similar to South Cambridgeshire, a lower threshold of 10 dwellings in line with the NPPF was agreed by members at their November 2018 Planning Committee. The Cambridge Local Plan has two thresholds with 25% affordable housing required on developments of 11 (10) -14 units and 40% affordable housing required on sites of 15 or more units.

## Gypsy & Traveller community

### Caravan Count – Cambridge

Table 20 – Traveller Caravan Count for South Cambridgeshire

Source: Traveller caravan count, ONS

Note: Table 17 and 18- The twice-yearly Traveller Caravan Count takes place in January and July, recording the number of caravans on both authorised and unauthorised sites across England. Each January count now includes a count of caravans occupied by travelling showpeople in each local authority in England. There was no Traveller Caravan Count in July 2020 and January 2021 due to Coronavirus restrictions.

\* Cambridge figures exclude business land lost on land allocated for alternative uses as this has been accounted for, see final section of Policy 41

Note: 2013-2014 in Cambridge includes: change of use of Compass House to educational use (3.48 hectares, 13/0992/FUL) which was in accordance with policy at the time of consideration of planning application

2015-2016 in Cambridge includes: conversion of Castle Court to student accommodation via prior approval (0.582 hectares, C/01703/15), and change of use of Elizabeth House to education use and student rooms (1.908 hectares, 13/1305/FUL, principle of change of use established through earlier permission approved in December 2012)

2011-2012 in South Cambs includes: demolition of SCA Packaging (2.4 hectares, S/2530/11) which was vacant and marketing had deemed the use of the site for other purposes acceptable (proposal for residential development on the site)

completed), and prior notification for demolition of Syngenta building (1.5 hectares, S/1867/11) as office building no longer economically viable

2013-2014 in South Cambs includes: demolition of Monsanto buildings to enable Trumpington Meadows (0.76 hectares) and prior notification of demolition of former concrete products factory in Sawston (2.65 hectares, S/2646/13/PD) which was redundant

2019-2020 in South Cambs includes: Prior Notification for Demolition of Printworks, Garages, Houses and Remediation of Soils on land between Church Lane and Ermine Street South, Papworth Everard (2.13 hectares) (S/2417/16/PN)

2020-2021 in South Cambs includes: demolition of existing industrial and office units and 5 dwellings and the erection of up to 90 dwellings together with all associated works at Green End Industrial Estate, Gamlingay (2.69 hectares) (S/4085/19/RM)

#### Amount of employment land (hectares) lost to residential development

| March 2016 | 485            | 0.5                                      |
| March 2017 | 465            | 0.5                                      |
| March 2018 | 495            | 0.5                                      |
| March 2019 | 655            | 0.7                                      |
| March 2020 | 1,035          | 1.1                                      |
| March 2021 | 3,090          | 3.2                                      |

| Month/Year     | Claimant count | Claimants as a % of residents aged 16-64 |
|----------------|----------------|--|
| March 2022     | 1,835          | 1.9                                      |
| September 2022 | 1,750          | 1.8                                      |

Table 62 – The claimant count in Cambridge and South Cambridgeshire

Source: The claimant count, ONS (via NOMIS)

Note: the claimant count includes the number of people claiming Jobseeker's Allowance plus those who claim Universal Credit and are required to seek work and be available for work and replaces the number of people claiming Jobseeker's Allowance as the headline indicator of the number of people claiming benefits principally for the reason of being unemployed.

Although beyond the timeframe of this AMR, data has been included for September which is the latest period at the point the data was compiled.

### Residents aged 16-64 in employment and working within 5km of home or at home (%)

| Area                 | Percentage recorded 2011 |
|----------------------|--------------------------|
| South Cambridgeshire | 35%                      |
| East of England      | 43%                      |

Note: each year covers the period April to March

## Business demography

### Births and deaths of active enterprises in South Cambridgeshire

| Period | Enterprise births | Enterprise deaths | Active enterprises |
|--------|-------------------|-------------------|--------------------|
| 2016   | 890               | 700               | 8,230              |
| 2017   | 880               | 820               | 8,335              |
| 2018   | 1,020             | 755               | 8,595              |
| 2019   | 1,015             | 835               | 8,805              |
| 2020   | 755               | 855               | 8,660              |
| 2021   | 890               | 830               | 8,670              |

Table 65a – Births and deaths of active enterprises in South Cambridgeshire  
Source: Business Demography, UK (ONS)

### Births and deaths of active enterprises in Cambridge

| Period | Enterprise births | Enterprise deaths | Active enterprises |
|--------|-------------------|-------------------|--------------------|
| 2016   | 695               | 520               | 5,370              |
| 2017   | 585               | 530               | 5,380              |
| 2018   | 545               | 485               | 5,335              |
| 2019   | 615               | 495               | 5,380              |
| 2020   | 595               | 470               | 5,415              |
| 2021   | 570               | 485               | 5,415              |

Table 65b – Births and deaths of active enterprises in Cambridge  
Source: Business Demography, UK (ONS)

Note: the 2021 data release made substantial revisions back to 2016. Therefore, previous years have not been included to avoid discontinuities. The change in the number of active enterprises in one year does not equal the difference between births and deaths in the previous year because businesses can still be active in the year they start or close.

## Climate change data

### Water consumption per household per year

#### Water consumption per head per day (litres) in South Cambridgeshire

| Period    | Un-measured | Measured | Average |
|-----------|-------------|----------|---------|
| 2010-2011 | 154         | 131      | 141     |
| 2011-2012 | 150         | 129      | 138     |
| 2012-2013 | 141         | 123      | 130     |
| 2013-2014 | 146         | 125      | 133     |
| 2014-2015 | 143         | 122      | 131     |
| 2015-2016 | 163         | 117      | 133     |
| 2016-2017 | 175         | 120      | 137     |
| 2017-2018 | 179         | 128      | 145     |
| 2018-2019 | 134         | 165      | 149     |
| 2019-2020 | 162         | 118      | 131     |
| 2020-2021 | 175         | 141      | 151     |
| 2021-2022 | 163         | 132      | 141     |

Table 66 – Water consumption per head per day (litres)

Table 71 – Number of planning permissions granted contrary to the advice of the Environment Agency on either flood defence or water quality grounds

Source: Environment Agency

Note: data has been revised from previous years after reviewing the new data release from the Environment Agency. The Agency has also stated that the data might not be exhaustive, because between 2011- 2016, they were logging 65 – 70% of decisions nationally.

\* Note: Planning application 16/0617 was initially objected to by the Environment Agency. However, the Agency noted that they would remove their objection if a Flood Risk Assessment was submitted by the applicant. The applicant submitted this document and the decision was permitted by the Council. However, there is no record of the Environment Agency removing their objection, even though the applicant conformed to Agency's requirements.

\*\* Note: Planning application S/2844/14 was initially objected to by the Environment Agency and refused by South Cambridgeshire Council who followed their advice. However, it was granted permission at appeal in 2019.

\*\*\* Note: Planning application S/2082/19 is listed incorrectly by the Environment Agency as being permitted by the Council against their advice. However, the Agency

submitted a letter to the Council stating that they would withdraw their objection if conditions were attached. The Council applied conditions to the permission in accordance with the Environment Agency's advice and this should have led to the withdrawal of the objection.

\*\*\*\*Note: In relation to planning Application 21/01111/FUL, the delegate report states that whilst the Environment Agency raised an objection relating to foul water drainage, the Council considered that the proposed water storage tank would not involve the discharge of foul water. Given the nature of the proposal, the Council stated that the proposal would produce clean water that would not present a risk to the surrounding landscape and Riddy Brook and therefore permitted the application.

## Air Quality

Annual average concentration of Nitrogen Dioxide (one-millionth of a gram per cubic metre) (at monitoring points)

| Good     | 7%   | 7%   | 10%  | 3%   | 6%   | 2%   | 2%   | 7%         | 0%          |
| Moderate | 72%  | 55%  | 50%  | 54%  | 50%  | 62%  | 84%  | 84%        | 89%         |
| Poor     | 20%  | 36%  | 37%  | 41%  | 43%  | 34%  | 14%  | 10%        | 11%         |
| Bad      | 0%   | 2%   | 3%   | 2%   | 2%   | 2%   | 0%   | 0%         | 0%          |

Table 80 – Ecological Status percent length of main rivers

Source: Environment Agency

\*Note: in 2016, the EA took the decision to run WB classifications on tri-annually and no new data will be available until 2023.

\*\*Note: some numbers previously rounded up/down incorrectly so figures have been amended

\*\*\*Note: there has however been a change in the way the EA monitor PBDEs (Polybrominated diphenyl ethers). This Chemical status failure means that overall waterbody statuses are now limited to Moderate. This explains why the three waterbodies previously at Good status have seemingly deteriorated

## Household waste collected per household per year

### Household waste collected per household per year (Kilogram)

| Period      | South Cambridgeshire |

Table 85a – Carbon Dioxide emissions by sector and per capita

Source: Department for Business, Energy & Industrial Strategy (June 2021)

\*Note: The BEIS data covers the period to 2020, there is no data for 2021. The figures for this table have substantially changed compared to the previous year. The BEIS have explained that they have incorporated new data into their methodology which has led to the change. The fall between the 2019 and 2020 figures in the latest dataset reflects the general fall in road traffic in 2020 due to the pandemic.

## Change in area of sites of biodiversity importance (SPA, SAC, RAMSAR, SSSI, NNR, LNR, CWS)

### Special Areas of Conservation (SAC) within South Cambridgeshire

| Period  | SAC area in South Cambridgeshire (hectares) |
|---------|---|
| 2018-19 | 67.1  |
| 2019-20 | 66.2  |
| 2020-21 | 66.2  |
| 2021-22 | 66.2  |

Table 88 – SAC within South Cambridgeshire

Source: CPERC

\*Note: there was an error in the presentation of last year's data which has now been rectified. There are also no SACs within the city of Cambridge.

### Local Nature Reserves (LNR) within Greater Cambridge

| Period  | LNR area in Cambridge City (hectares) | LNR area in South Cambridgeshire (hectares) |
|---------|---------------------------------------|---|
| 2011-12 | 77.1                                  | N/A   |
| 2012-13 | 77.1                                  | N/A   |
| 2013-14 | 77.1                                  | N/A   |
| 2014-15 | 77.1                                  | N/A   |
| 2015-16 | 77.06                                 | N/A   |
| 2016-17 | 77.06                                 | N/A   |
| 2017-18 | 77.06                                 | N/A   |
| 2018-19 | 77.06                                 | 36.88                                       |
| 2019-20 | 77.06                                 | 36.88                                       |
| 2020-21 | 77.06                                 | 36.88                                       |
| 2021-22 | 77.06                                 | 36.88                                       |

Definitions from [The Planning Portal](#)

\*D1 uses (Non-residential institutions) include Clinics, health centres, crèches, day nurseries, day centres, schools, art galleries (other than for sale or hire), museums, libraries, halls, places of worship, church halls, law court. Non-residential education and training centres

\*D2 uses (Assembly and leisure) include Cinemas, music and concert halls, bingo and dance halls (but not night clubs), swimming baths, skating rinks, gymnasiums or area for indoor or outdoor sports and recreations (except for motor sports, or where firearms are used).

Note: changes to the Use Classes Order came into effect on 1 September 2020.

Class D has been revoked:

- D1 is split out and replaced by the new Classes E(e-f) and F1
- D2 is split out and replaced by the new Classes E(d) and F2(c-d) as well as several newly defined 'Sui Generis' uses.

These changes will have implications for monitoring future years.

## Delivery of community and leisure facilities (Net completed floorspace) in Cambridge

| Period                 | D1*            | D2*           |

## Open space in Cambridge City at May 2020

| Area                   | Total Area (Hectares) * | Semi-Natural Woodland (Hectares) | No. of Play Areas |
|------------------------|-------------------------|----------------------------------|-------------------|
| Clay Farm              | 10.37                   | 3.54                             | 2                 |
| Glebe Farm             | 2.61                    | 0                                | 4                 |
| Orchard Park           | 2.49                    | 0                                | 1                 |
| Trumpington Meadows    | 3.99                    | 0                                | 1                 |
| <b>All Areas Total</b> | <b>19.45</b>            | <b>3.54</b>                      | <b>8</b>          |

Table 95 – Open Space in Cambridge City at May 2020

Source: this information is collected using aerial photography alone and has not been subject to a site visit so may be revised in future. The data provided will be used to provide a baseline to compare against future years and we will work to improve the data available in future years.

\*Note: new areas identified since 2011 Open Space and Recreation Strategy. Some of these are existing sites that haven't previously been assessed. Some of these are new sites that have been provided as part of new development. Areas include amenity areas either side of pathways.

Aerial Photography for Eddington is too limited to identify the majority of new areas therefore no summary is provided. Similarly, there are parts of Clay Farm & Trumpington Meadows that can't be identified by the latest Aerial Photography.

## Design and Conservation data

### Number of Buildings of Local Interest (BLIs) in Cambridge

| Period | Cambridge |
|--------|-----------|
| 2012   | 1,032     |
| 2013   | 1,032     |
| 2014   | 1,032     |
| 2015   | 1,043     |
| 2016   | 455       |
| 2017   | 452       |
| 2018   | 460       |
| 2019   | 467       |
| 2020   | 465       |
| 2021   | 465       |
| 2022   | 465       |

Table 106 – Number of Buildings of Local Interest (BLIs) in Cambridge

Source: Conservation Team - Greater Cambridge Shared Planning Service

Note: in some cases a single entry is used to cover more than one building. The significant reduction in the number of BLIs between 2014/15 and 2015/16 was as a result of consolidating entries meaning that a single entry is sometimes used to cover more than one building.

## Number of listed buildings and number that are at risk in South Cambridgeshire

| Period | Number of listed buildings | Number at risk | % of listed buildings at risk |
|--------|----------------------------|----------------|-------------------------------|

### Covid-19 Caveats

All data released as part of the DfE's KS4 Performance 2022 Publication is publicly available for all on the DfE website:

### [Key stage 4 performance \(revised\), Academic year 2021/22](#)

This release includes all characteristics and geographical breakdowns that are usually published in November's 'provisional' release. Data for South Cambridgeshire is based on the School District identified in the Get Information about Schools data available at:

### [Get Information about Schools](#)

### Year on Year Comparisons

Data from 2021/22 should not be directly compared to attainment data from other years for the purposes of measuring year on year changes in student performance.

- Although introduced for some GCSE subjects in 2015, the new 9 to 1 grading system (rather than A\*-G) was not applied to all GCSE subjects until 2020. Year on year comparisons will be limited until these qualifications are consistently included from 2020 onwards.

Due to the impact of Covid-19 data from 2019/20 and 2020/21 should not be directly compared to attainment data from other years for the purposes of measuring year on year changes in student performance.

- In 2019/20 pupils were awarded either a centre assessment grade (known as CAGs, based on what the school or college believed the pupil would most likely have achieved had exams gone ahead) or their calculated grade using a model developed by Ofqual - whichever was the higher of the two.
- In 2020/21 pupils were only assessed on the content they had been taught for each course. Schools were given flexibility to decide how to assess their pupils' performance, for example, through mock exams, class tests, and non-exam assessment already completed. GCSE grades were then determined by teachers based on the range of evidence available and they are referred to as teacher-assessed grades, or TAGs.
- The increases seen in the headline statistics for 2019/20 and 2020/21 likely reflect the changed method for awarding grades rather than demonstrating a step change improvement in standards.

#### **Data Not Available (n/a)**

Progress 8 Data - this was not published in 2020 and 2021 because of the cancellation of GCSE exams (due to COVID-19). Calculating Progress 8 has an element of modelling (estimating the average Attainment 8 score for pupils with similar prior attainment) and with the lack of exam data, the Progress 8 measure is not meaningful as a measure of progress for these years.

Ebacc Average Points Score - this was not introduced in performance tables until the 2017/18 academic year so is not available for previous academic years.
